

Accessible Van Project for Mason Family

The Mason family live in Gainesville, Florida, and have 3 children. Zaivion is the oldest, and Zyler is in 1st grade. Both young men have a genetic disorder that affects their ability to walk, talk, and move like everyone else. They both utilize power chairs to get around in their daily lives.

Their father, Alonzo, and their mother, Lashunda, both work for Alachua County Public Schools. As a family, they love learning, life, and laughing. However, we are reaching out to see if you can assist with one part of their life.

They currently do not have a wheelchair accessible van and the parents are having to pick up the power wheelchairs each time they go anywhere to get them in and out of a standard van.

We are seeking donations to support their getting an accessible van so that they can go and do activities without having to put their own health at risk.

As of now this part of our work with the family is a surprise. Please help us get to the reveal day making this project as successful as possible, without spilling the secret!

Donations can be made through the Jordan Klausner Foundation, and are tax deductible. To donate, please visit: PayPal and send funds to jordanklausnerfoundation@yahoo.com or write a check to Jordan Klausner Foundation (2332 NW 40th place, Gainesville, FL 32605).

For any questions about donation options, email jordanklausnerfoundation@yahoo.com

All donations made to the Foundation are going towards this project at a 100% rate.

If you have any questions about this project, please contact Elisa Wern, at 352-327-8388, or werned@gm.sbac.edu
